DILLIRAJA S

UI UX Designer

I am a creative and motivated UI/UX designer fresher with strong interest in user- friendly design. I have hands-on experience in tools like Figma and Canva. I understand wireframes, prototypes, and the design thinking process. I am a quick learner and excited to work in a professional design environment.

Personal Projects

To-Do List App Design (Figma)

➤ Created a clean and user-friendly mobile app UI for managing daily tasks using Figma.
➤ Designed key screens including task input, task list with checkboxes, and task filters.
➤ Applied modern design principles with consistent spacing, colors, and typography.
➤ Built interactive prototypes to demonstrate app flow and user interactions.

Password Generator (Python)

❖ import random and import string bring in tools to help create random passwords.
❖ string.ascii_letters gives all uppercase and lowercase letters.string.
❖ digits gives numbers 0 to 9.string.punctuation gives special symbols like !@#$%.
❖ The function generate_password(length) creates a password of the given length.
❖ It picks random characters from the combined set.Finally, it prints the generated password.
